## GS/500 SERIES OF UNIVERSAL GUITAR STANDS WITH SELF-LOCKING YOKE

- Quik Lok introduces the new GS/500 Series of universal guitar stands, combining the elegance of a contemporary design with an ingenious device (patent-pending) that allows for a secure and well balanced support of any size electric/acoustic guitar and bass.
- When the guitar is placed into the stand yoke, the instrument's weight will automatically drive the lateral safety barriers incorporated in the yoke to engage. The safety barriers turn down to lock the guitar neck securely in place, preventing the instrument from accidentally falling off the stand. When the guitar is lifted from the stand the security barriers will simultaneously turn back to their original position to free the instrument.
- Durable, smooth velveteen foam padding on yoke protects guitars from scratches and will not mar finish.
- The neck holder height can be easily adjusted to multiple positions by simply releasing the extension lever and then clamping it back into position for a secure grip.
- The guitar body rests comfortably and safely against metal supports that are adequately covered with velveteen foam cushioning to protect and avoid marring the guitar finish.
- Collapsible neck allows to fold the stand to a slender shape for easy storage and transport.
- The GS/500 Series comprises three floor stand models, for one, two and three electric/acoustic or bass guitars.

Color:	Black

Options: QL/662, QLX/1, QLX/3, QLX/4, QLX/5, LPH/X, IPS/11, IPS/13

The T/10KD collapsible stand comes folded flat to an extremely compact, space-saving size (37.4" x 7.1" x 2.75" - 95 x 18 x 7 cm) for easy storage and transport

When disassembled, special rubber joints are used to hold all four tiers and legs tightly connected to the stand's main frame, so as to avoid them getting damaged or lost during transport: even when knocked-down, there are no parts to lose!

Tiers and legs can be bolted onto the stand's main frame in a snap using the supplied hexagonal key. Once the stand is set up for use, the same rubber joints prove to be very helpful as cable management channels

Mounting bolts required to fasten all four tiers and legs to the stand's main frame are equipped with nutlocks to ensure they always stay firmly in place and to prevent them from being misplaced even when the stand is disassembled

## LPH/005 TABLETOP UNIVERSAL LAPTOP HOLDER FOR USE ON STAGE, PRODUCTION STUDIOS AND MULTI-MEDIA WORKSTATIONS

- Clever, safe and practical design allows musicians, DJs and laptop-based performers to integrate their laptop with existing furniture, raising it above all the gear positioned on their workstation.
- Rugged, all-steel construction, will stand alone on any flat surface and hold virtually any size laptop firmly and securely in place, without interfering with dock connector, speaker, headphone jack, on/off and volume buttons.
- No-wobble, lightweight steel platform is designed with safety raised lips, non-slip rubber pads and cooling slots to ensure max ventilation to your laptop.
- The platform can sit flat at a 13.2" fixed height position (33.5 cm), but can also be very quickly angled at two preset tilt positions.
- Lightweight and portable design, folds up in a snap in one piece for easy storage and convenient travel.
